

Certification Policy

Last Update: November 29, 2023

The Partner Program Certification Policy aims to secure the highest possible code quality, PGC standards, data quality and best practices in our developer community. And make it easier for manufacturers in our community to select the right partner for their needs.

The developer certification, partner certification and/or industry certification will be reviewed annually with each partner to determine any necessary updates. Each partner developer should go through training and certification within stipulated terms by CSAB.

The certification program is currently under development and more details will be shared as it progresses. Individual certifications for developers will be closely linked to the Developer academy launching later in 2023 or early 2024. See the Configura Developer Portal @ developer.configura.com

Only Certified development partners will be invited to the incentives program. To qualify all Partner Developers must have gone through and passed training and certification.

Updates or Changes to this Partner Program Certification Policy

Configura may update or change this Partner Program Certification Policy from time to time. Configura will notify You of any changes by posting the new Partner Program Certification Policy on this page.

Configura will let You know via email and/or a prominent notice, prior to the change becoming effective and update the "Last updated" date at the top of this Partner Program Certification Policy.

You are advised to review this Partner Program Certification Policy periodically for any changes. Changes to this Partner Program Certification Policy are effective when they are posted on this page.

Your continued use of the Services constitutes your agreement to this Partner Program Certification Policy and any updates.
